

Balanced

for the year ended 31 March 2020

This update was first made publicly available on 26 June 2020.

What is the purpose of this update?

This document tells you how the Balanced investment option has performed and what fees were charged. The document will help you to compare the fund with other funds. PSS Trustees Limited prepared this update in accordance with the Financial Markets Conduct Act 2013 (FMCA). This information is not audited and may be updated.

Description of this fund

Balanced has a 50:50 split between growth assets (such as shares) and income assets (such as fixed interest and cash). It aims to provide a long-term (10 years plus) return after tax and investment expenses of 2% p.a. above the inflation rate, with the likelihood of a negative return 1 year in every 4 and a small probability of any annual loss exceeding 10%.¹

Total value of the fund	\$885,652,161
Number of investors in the fund	4,777
The date the fund started	1 May 2003

What are the risks of investing?

Risk indicator for Balanced

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.policessuper.co.nz. Look for the Risk Profiler under 'Forms and resources'.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) available at www.policessuper.co.nz and on the offer register at www.disclose-register.companiesoffice.govt.nz for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years	Past year
Annual return (after deductions for charges and tax) ²	2.76%	(3.90%)
Annual return (after deductions for charges but before tax)	3.38%	(4.16%)
Market index annual return (reflects no deduction for charges and tax)	3.78%	(2.67%)

The market index annual return is based on the returns of a composite index. The composite index is made up of the individual asset class benchmark indices used to measure the performance of each underlying fund/asset class into which the fund invests. Accordingly, the market index annual return for each of the funds is a composite return, calculated using the weighted average return of the benchmark indices used to measure the performance of the underlying funds/assets into which each fund invests. The weighting for each benchmark within the composite is equal to the strategic asset allocation weighting for that asset class. This market index return provides a relative measure of the fund's performance.

Further information about the market index is available on the offer register at www.disclose-register.companiesoffice.govt.nz.

Annual return graph²

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years up to 31 March 2020.³

Important: This does not tell you how the fund will perform in the future.

What fees are investors charged?

Investors in Balanced are charged fund charges. In the year to 30 June 2019, these were as follows:

	% of net asset value
Total fund charges	0.58
Which are made up of:	
Total management and administration charges	0.58
Including:	
Manager's basic fee	0.45
Other management and administration charges	0.13
<hr/>	
Other charges	Dollar amount per investor
Administration fee	\$66 per annum

Small differences in fees and charges can have a big impact on your investment over the long term.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Police Superannuation Scheme PDS for more information about those fees.

Example of how this applies to an investor

Mary had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Mary received a return after fund charges were deducted of \$504 (that is 5.04% of her initial \$10,000). Mary also paid \$66 in other charges. This gives Mary a total return after tax of \$438 for the year.

What does the fund invest in?

Actual investment mix

This shows the types of assets that the fund invests in.

Asset type	Allocation
Cash and cash equivalents	0.22%
International fixed interest	50.25%
Australasian equities	8.22%
International equities	23.04%
Listed property	1.89%
Commodities	6.62%
Other ⁴	9.76%

Target investment mix

This shows the mix of assets the fund generally intends to invest in.

Asset type	Allocation
Cash and cash equivalents	5.00%
International fixed interest	45.00%
Australasian equities	7.50%
International equities	22.50%
Listed property	2.50%
Commodities	7.50%
Other ⁴	10.00%

Top 10 investments

Asset name	% of fund net assets	Type	Country	Credit rating
BNP Paribas US Dollar Account	4.43%	International equities	United States	NA
First State Investments Global Listed Infrastructure Fund	3.16%	Other	New Zealand	NA
Mercer MITNZ	2.81%	Commodities	New Zealand	NA
Outstanding Settlement Receipts – USD	2.77%	International equities	United States	NA
Citibank 030641 0.01 Variable Cash Collateral	1.67%	International equities	United States	NA
The a2 Milk Company Limited	1.24%	Australasian equities	New Zealand	NA
Fisher & Paykel Healthcare Corporation Limited	1.24%	Australasian equities	New Zealand	NA
BNP Paribas New Zealand Dollar Account	1.12%	International equities	New Zealand	NA
Futures Margin – NZD	1.10%	Commodities	New Zealand	NA
Outstanding Settlement Receipts – EUR	0.92%	International equities	New Zealand	NA

The total value of the above 10 individual assets is 20.46% of the net asset value of the fund.

Currency hedging

Hedging is a tool used to reduce the effects of changes in exchange rates on investment returns. Investments which are hedged are, in effect, made in local currency. The scheme's international investments are 100% hedged with the exception of international equities which are 50% hedged. Further details and additional information are available in the *Statement of Investment Policy and Objectives* at www.policesuper.co.nz and on the scheme register at www.disclose-register.companiesoffice.govt.nz.

Key personnel

Name	Current position	Time in current position	Previous or other current position (if relevant)	Time in previous or other position
Charles Bertram Cahn	Director, Police Superannuation Scheme	25 years 9 months ⁵	Actuarial consultant	6 years 11 months
Sarah Louise Graydon ⁶	Director, Police Superannuation Scheme	1 year 0 months	Scheme trustee (various)	9 years 3 months

Alister James Van der Maas	Managing Director, Russell Investments	8 years 11 months	Director, Deutsche Bank, London	3 years 0 months

Further information

You can also obtain this information, the PDS for the Police Superannuation Scheme and some additional information from the offer register at www.disclose-register.companiesoffice.govt.nz.

Notes

- ¹ Since the most recent balance date for the Police Superannuation Scheme, the trustee has changed the investment return expectation to 1.5% p.a. above the inflation rate. The trustee has also clarified the description of its long-term return expectation to include 'the likelihood of a negative *nominal* return *approximately* 1 year in every 4 and a small probability of any annual *nominal* loss exceeding 10%'. The nominal return (or loss) is the return received (or loss incurred) before factoring in expenses such as taxes, fees and inflation.
- ² Returns prior to 1 July 2019 are net of tax at 28%. The scheme became a PIE on 1 July 2019, therefore, the returns from 1 July 2019 are calculated net of tax at the highest prescribed investor rate (PIR) which happens to also be 28%.
- ³ The bar chart shows fund returns after the deduction of fees and tax. However, the market index returns are shown before any fees or tax are deducted.
- ⁴ This includes investments in international listed infrastructure and international fund of hedge funds.
- ⁵ Includes service as an individual trustee of the scheme before the shift to a corporate trustee
- ⁶ Sarah Graydon has not been named in a previous fund update for Balanced.
